{F 000}	INITIAL COMMENTS The following citations represent the findings of a Non-compliance Revisit and Complaint investigation KS00181891. The 2567 was sent electroncially on 08/16/23.	{F 000}		
{F 804} SS=E	Nutritive Value/Appear, Palatable/Prefer Temp CFR(s): 483.60(d)(1)(2) §483.60(d) Food and drink Each resident receives and the facility provides- §483.60(d)(1) Food prepared by methods that conserve nutritive value, flavor, and appearance; §483.60(d)(2) Food and drink that is palatable, attractive, and at a safe and appetizing temperature. This REQUIREMENT is not met as evidenced by: The facility had a census of 61 residents. Based on observation, record review, and interview, the facility failed to prepare pureed food (a texture-modified diet in which all foods have a soft, pudding-like consistency) by methods that conserve nutritive value, flavor, and appearance for eight residents who received pureed diet. This placed the residents at risk for inadequate nutrition. Findings included: - On 08/07/23 at 12:45 PM Dietary Staff (DS) BB prepared the meal items for the evening meal. DS BB weighed turkey and cheese, measured milk, mayonnaise, tomato juice, and had eight hamburger buns. DS BB placed all the ingredients into a blender and blended until a	{F 804}

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients . (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

smooth consistency. DS BB measured eight servings (white scoop/#6/5.3 ounces) into a container, labelled and dated, then placed into the refrigerator. DS BB placed the remaining mixture into another container which was also labelled and dated and placed into the refrigerator. DS BB provided copy of recipe from DiningRD.

The DiningRD recipe called for eight turkey and cheese sandwiches, three tablespoons and two teaspoons of mayonnaise, three ups of milk, and one quart and two cups of tomato juice. The recipe instructed to place sandwiches and mayonnaise in food processor. Gradually add milk, blend until smooth. Portion with #6 scoop, cover, label, date, and refrigerate. Serve with six ounces of tomato juice.

On 08/07/23 at 02:35 PM, DS BB reported she had misread the recipe and added tomato juice to the pureed sandwich. DS BB verified the portion amounts would not be correct due to the amount of liquid added to the meat and cheese protein for the meal.

On 08/08/23 at 08:35 AM DS CC stated DS BB should have followed the recipe. DS CC stated the staff corrected the recipe to support correct nutrient value for the residents who received pureed diet.

The facility's undated "Updated-Pureed" policy documented it was important to follow the recipes or any community policy/procedure regarding pureeing foods (such as the total volume/total number of servings needed to determine the portion size method). If in doubt, the same number of portions should be obtained after pureeing the items as the starting number of
